SHIPPING NOTES

When an order is shipped from Vesta it typically includes a hardware package and a tubing package. Since the items are NOT packed together, it's possible that your packages won't arrive on the same day. Tube lengths exceeding 106 inches will incur significant additional freight charges. Your package should be inspected immediately upon receipt from the carrier. Shipping charges cannot be refunded once the items have been signed for. When calling to track your packages, please have your Vesta order number ready.
